TOTAL VALUE OF ASSETS		£401,482	

Most assets will be first recorded in the asset register at their actual purchase cost. In some cases the purchase cost may not be known and a proxy cost should be substituted. A proxy cost is a value for the asset which is estimated by the council based on external advice. Councils may apply the insurance value of the asset at the time of first recording as a proxy. Whether actual or proxy cost is used, for accounting purposes the first recorded value of the asset will not change throughout its life.
